Super quiet TRV

Features:

- Super low noise design
- Standalone mode or paired with room thermostat
- Intuitive user interface with additional dial knob and LCD display
- 4 display orientations to fit all types of radiator installations
- Quick connect radiator valve mounting feature for ease of installation and dismounting
- Integrated and interchangeable adapters for M30, M28 and RA valve compatibility with one main body
- Zigbee 3.0 open IoT standard for reliable and secure wireless network connectivity

Product Type	Electronic radiator valve controller
Actuator shaft force	> 80N
Valve connection	M30, M28 or RA
Display	Segment LCD with backlight
Temperature measuring range	0°C – 45°C
Heating set point range	5°C – 33°C
Heating set point display resolution	1°C (standalone mode)
Control mode	Advanced PI control
RF Communication	2.4GHz, Zigbee 3.0 compliance
Power source	2 x AA Alkaline batteries
Operating temperature	0°C – 40°C
Storage temperature	-30°C – 60°C
IP class	IP20
Agency Approval	CE
