# RF MULTIZONE CONTROL BOX

## CB12RF

Designed to fit neatly into manifold cabinets, the CB12RF is an ideal choice for modern heating and cooling systems in residential or light commercial environments.

**Built for professionals,  
loved by users!**

### 12 zones/24 actuators:

Ideal for underfloor heating and manifold-based installations, providing extensive and precise control.

### Heat/cool changeover:

Automatically adapts to seasonal needs, ensuring year-round comfort and efficiency.

### Master-slave expansion:

Extend control to large properties with up to 8 additional slaves.

### Advanced ZigBee 3.0 compatibility:

Ensures seamless integration with SALUS Smart Home and other smart systems

### WiFi OTA firmware updates:

Enables effortless updates to stay current with the latest features and improvements.

### Installer advantages:

- **Easy integration**

Compact design fits manifold cabinets.

- **Simplified setup**

Intuitive buttons and LED indicators save time.

- **Enhanced safety**

Includes earth terminals and fuse protection.

### Enhanced user experience:

- **Total comfort**

Manage up to 12 zones for a customized climate.

- **Sustainability**

Optimize energy use and integrate with sustainable systems.

- **Peace of mind**

A robust 5-year warranty and reliable SALUS technology.

### APPLICATIONS

#### Residential homes

Manage underfloor heating in every room.

#### Offices and commercial spaces

Optimize energy in offices or shops.

#### Renovations

Upgrade old systems with ease.
