

# EP210

2 Channel Programmer

The two-channel surface-mounted programmer facilitates the operation of electrical devices (such as pumps or lighting) by setting their operation time (on and off). It has a display which makes it even more useful.

## Characteristics

- Can only be used for 230V applications.
- Individual control of central heating and hot water
- 3 On/Off periods
- Large, easy to read LCD
- Can control two separate devices
- Works in a daily or 5-2 cycle (Mon-Fri + Sat-Sun)
- 3 time intervals can be created for each channel (accuracy to the minute)
- Maintains clock settings
- Holiday function
- Advance function
- Boost function
- Simple installation
- Default program
- 5 Year Warranty
