Errata Sheet

EV Charger User Manual - Tethered Type

Document: EV Charger Manual Tethered, Version 11
Published: September 2025
Issued: September 2025

Please note the following correction:

## Page 16 - Step3: Adding your first EV Charger

Incorrect

During the initial setup, the LED flashes yellow.

Correct

After the initial power-on of the device, the LED may flash yellow or green. This behaviour is normal and indicates that the device is undergoing setup and initialisation.

LED flashes YELLOW or GREEN

This correction is destined to ensure proper setup instructions.
