

HTR-RF(20)

Wireless Dial Thermostat

Simple to use, the HTR-RF(20) is perfect for users who appreciate a traditional dial face and want minimal intervention in the heating system. With silent switching and TPI (Time Proportional & Integral) calibration, accuracy and efficiency are nevertheless assured.

Characteristics

- Stylish compact surface mounted solution
- 'Self-learning' functionality time proportional and integral (TPI)
- ErP rating IV
- Valve Protection Function (VPF)
- LED status indication
- Night setback function
- ZigBee wireless Smart Home App integration
- ZigBee 2.4 GHz
- 5 year warranty

Features

Product	Wireless Dial Thermostat
Power Supply	2 xAA Batteries
Temperature Range	5°C- 32.5°C
Dimensions (mm)	80 x 80 x 35
Communication	ZigBee 2.4GHz HA 1.2
Span	+/- 0,5°C
Protection	IP30
CE Conformity	Class II (EN60730)
Storage Temperature	-20°C to +60°C

Connection Scheme
