

iT300

Wireless temperature sensor for the iT500 controller

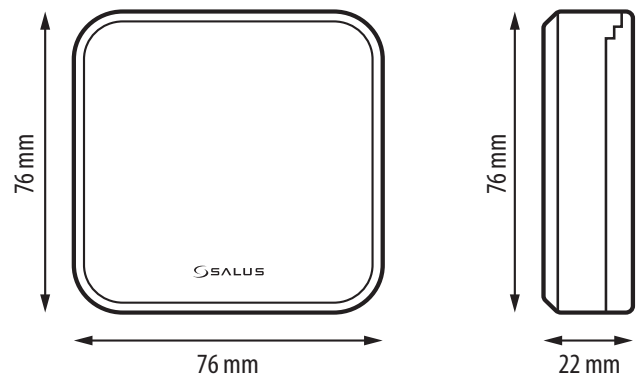

The sensor is adapted to work with the online iT500 controller or the wireless XT500 controller. The controller should be configured so that it supports two heating zones, then the iT300 sensor controls the second heating zone.

Characteristics

- 5 year warranty

Features

Product	Wireless temperature sensor for the iT500 controller
Supply	2xAA Batteries
Communication	Wireless, 868 Mhz
Dimensions (mm)	76 x 76 x 22
