

SIR600

SMART IR AC CONTROLLER

Embrace the convenience and efficiency of modern smart home technology with the SIR600 Smart IR AC Controller. Transform your traditional air conditioning system into a smart, user-friendly experience. Control, monitor, and automate your home's climate with ease, all while benefiting from the extensive features of the SALUS Smart Home System.

BENEFITS

- **Works with SALUS smart gateway via WIFI**

Easily manage your AC unit from anywhere using the SALUS Premium Lite App thanks to seamless WiFi integration with the SALUS Smart Gateway.

- **Integrates with SALUS smart home system & mobile app**

Control your AC and other smart devices within the SALUS Smart Home System.

- **Converts most traditional AC units into smart ones**

Upgrade your traditional air conditioners to smart devices using IR technology, allowing app-based control without costly replacements.

- **Compatible with hundreds of AC brands**

Supports a wide range of AC brands, ensuring easy integration and control of almost any split unit air conditioner.
