

TRV10RFM

Intelligent Thermostatic Head

The TRV10RFM is a battery-powered, mini-size thermostatic radiator valve (TRV) controller using ZigBee wireless communication. Simply replace the existing, passive head on the standard valve with the TRV10RFM. You can connect up to 6 TRV's to one HTRS-RF(30) thermostat used with the SALUS Smart Home gateway.

Characteristics

- Automatic valve adaptation
- Easy wireless pairing
- Manual on/off buttons
- LED status indication
- Buttons can be locked
- Frost protection function
- Open window detection function
- Limescale protection function
- Optional mounting ring
- 5 year warranty
